- ✓ our own policy papers

NEWS

- ✓ weekly media review
- ✓ our own news stories

EMAIL ALERTS

- ✓ keep your finger on the pulse

Keeping on top of Empty Homes

PRACTITIONER TOOLS

If you want to be an effective empty homes practitioner, you've got to be well-informed. Legislation, policy, best practice—new developments across the board.

It's our job to support practitioners with the tools they need. Our **resource library** does just that. And our forums make sharing easy.

NOW YOU CAN BENEFIT

But you no longer have to be a full practitioner member of NAEPP to benefit. Anyone can get full access to our Resource Library. All the news, all the information, all the links.

SUBSCRIBER OPTION

Whether you're an **RSL** or **regeneration company** working with local authority partners, a **politician** who really cares about the issue, a **policy-maker**, a **researcher**, or a **developer** or **builder** active in the field, just **£75p.a.** allows you full access to the most extensive library there is on the subject.

And you'll get not only the best information but also an insight into the issues of your most important partners: the practitioners.

How to Subscribe

Simply go to our [website](http://www.naepp.org.uk) and create an account, selecting membership type of "Subscriber". We'll take it from there

National Association of Empty Property Practitioners

Supporting the people who bring empty property back into use for housing
